Subject: Thank you! “Fostering Academic Integrity” at Northwestern Health Sciences U

Hi Tom,

Personally, I was very pleased with your presentation on “Fostering Academic Integrity across Campus,” and the conversations it stimulated. Several colleagues have given me informal positive feedback. Thanks also for the FERPA information.

It was great working with you; I was impressed right away with your effort to customize the event and tie in our specific case.

As you as a faculty developer probably have experienced yourself with outside facilitators, some workshops can be quite disappointing, but yours was definitely worth the money! :-)

Thanks again,

Verena
