What did you enjoy about the session? What changes/recommendations do you have to improve the session? Would you recommend including a session on this topic next year?

Q: Additional Comments

- Fantastic, high-energy session that was lots of fun. I got a lot of ideas to suggest to faculty. I enjoyed the part where we chose the top three and did a deep dive of those ideas. Highly recommend!
- I am a technician so question 3 is irrelevant
- Interactive and informative!
- Lots of energy! Great session!
- My favorite session of fusion. Of course, much of that is Tom's personality. But his info will be useful to my professors. All 104 were good emails
- Tom did a great job on presenting this topic.
- We'll done! Interactive, engaging, fun!
