Session Title: Think tank focus: Accessibility

Presenter(s): Thomas Tobin, Fair Berg, Aisha Haynes

Total evaluations returned: 7

RATINGS: **5** = *VERY GOOD* **4** = *GOOD* **3** = *AVERAGE* **2** = *FAIR* **1**= *POOR*

	Average Score
Presenter(s)' Knowledge	4.9
Usefulness of information	4.7
Overall session rating	4.6
Guidebook app star rating	4 (1 vote)

Comments:

- Concrete information that can be used to rationalize accessibility.
- Amazing, useful.
- Awesome conversations
- Wonderful to hear the conversations and ideas for making ally possible.
- Very organized.
- Both presenters were super knowledgeable – made some excellent points! Great start to a proactive conversation!
- On some level, I felt the responses address the legal side and the minimum of what you could do. Instead of being proactive, some items were deemed "as needed" even if these challenges are listed under the WCAG guidelines at Level AA or AAA (also remember not all students disclose). I think it would also helped to clarify what UDL truly means and what accessibility is.
