Count Response

1	Excellent instructor, excellent content, excellent experience.
1	It was all the information I needed, and nothing I didn't - just right! Fun too!
1	It was very good
1	So much information that is very useful and easily shared/translated to colleagues.
1	This was an engaging and interesting course on what is often a less than exciting topic.
1	Thomas did very good job. I teach a university seminar copyright course. I can't speak well to a novice's understanding of PANE as he described it, but I thought he did well. The takeaway on the disclaimer/justification statement side of using licenses, getting permission, not needing either was excellent for me.
1	Useful information, easily accessed
1	Very clear information and guidelines. I am able to take it back and use it immediately on our campus!
1	Very engaging speaker/facilitator. Useful information and frameworks.
1	Very informative, useful, and fun!

1 Today, only, for some reason, I had to reload the page several times because I couldn't post in the chat window. It was as if the window was frozen. I couldn't get my cursor to appear or access any functionality until I reloaded.

1 I would take any course with Thomas J. Tobin as an instructor. He is fantastic!!!!

1 It was initially quite hard to remember to do the assignment. For another webinar I took a few extra reminders, over the number that you sent, were helpful.

1 N/A

1 This was really great, exceeded our expectations. I found the ninja framework did not add too much value, it was cute for a bit, maybe tone it down and use more culturally authentic and sensitive pictures.
