Count Response

- 1 All three sessions were informative, interesting, and interactive. That is, I learned something new from each session.
- 1 Gained some insight into other institution's practices, gave me time to organize my own institution's practices, sessions were mostly focused on useful topics
- 1 I enjoyed the speakers, even if the sessions were a bit long. 1hr works better for my schedule than 90 minutes.
- 1 I found the synchronous sessions hard to follow - i.e. sharing in the chat and missing presenter points
- 1 Provided lots of ideas and suggestions that will be helpful as well look to implement an award as well as provide a way for chairs to observe online courses, especially if they have not taught online themselves.
- 1 This was a great course. Very good presenters.
- 1 This was well worth my time.
- 1 Very good information and ideas
- 1 Very informative with clear, practical information that can be immediately applied.

1	Audio issues on day 3
1	Audio problem with 3rd session.
1	I did have an initial issue with the use of a Google site for the course site (since my Google accounts are tied to a private g-mail account and not my institution's e-mail account). Still, I quickly found a "work-around" -- to keep two different browser windows open.
1	I had trouble with the first session, so had to review it remotely and read the chats.
1	The issue with audio in 3rd session, but the ELI tech staff resolved quickly as best they could for most attendees. Kudos to all!
1	none, except sound in last session, which we all had

- | Count | Response |
|-------|---|
| 1 | Activity 1 was helpful to some extent, but many of the points overlapped and it became tedious. Make it more focused. To do the audit in a way that would be productive and effective, it would require a lot more time and input from various parties, rather than simply the single person completing this course. |
| 1 | Don't have assignments due on the weekend. I missed the second one due to needing to be out of town for personal business, and lost out on getting a badge. |
| 1 | I do have an idea for a future ELI course but since I want to do my idea justice, I will endeavor to find out who/where to send [a more formal] proposal. [If one of the reviewers of this feedback survey knows who/where to send course proposals, please forward that information to kmclenna@tulane.edu.] Again, thank you for a terrific webinar course! |
| 1 | Provide resources ahead of time. Consider asynchronous delivery |
| 1 | This course was excellent ! |
