

Tobin, “How to Tell Whether UDL is Working”

Participant Rating Results

Attendance: 146 Respondents: 18

On a scale of 1 to 10, please indicate your level of agreement with the following statements.

1. The speaker used good presentation skills.
2. The speaker had good knowledge of the topic.
3. The session content was valuable to me.
4. The description matched what I experienced in the session.
5. Over all, this was a good session.

6. Please let us know any additional comments or feedback you have about the presenter, presentation, and experience.

- Fabulous and relevant to my work. Thank you.
- I loved how he described the visuals—it was clearly an accessibility feature (like descriptive audio), but it was also useful for sighted participants because he seamlessly integrated additional information and interpretations with the descriptions.
- I loved the no-pressure opportunities for interaction.
- It was excellent, thank you!
- Loved his presentation style and how he kept the content interesting and in bite-sized chunks.
- This ended up being more of an explanation of what UDL is and isn't rather than diving deeply into knowing whether it's working. However, the presenter was excellent, the content was easily digestible, and I will be adding his name to my list of potential speakers for university events!
- This was the best implementation of UDL in a presentation I've ever seen. Tom Tobin embodied and exercised all of the tips and tricks he taught. Great visuals, pace, and content. I will be watching the recording when it's sent out again just so I can take better notes and soak in the content.
- This webinar blew my socks off. The presenter was amazing—engaging, presented the material in a way that was easy to understand. You can tell that Tom lives what he taught us today.
