Please share any other feedback you have about the session:

This was a terrific session. I learned a lot, and what I learned helps me know what else I need to learn. Thanks.

Another excellent session!

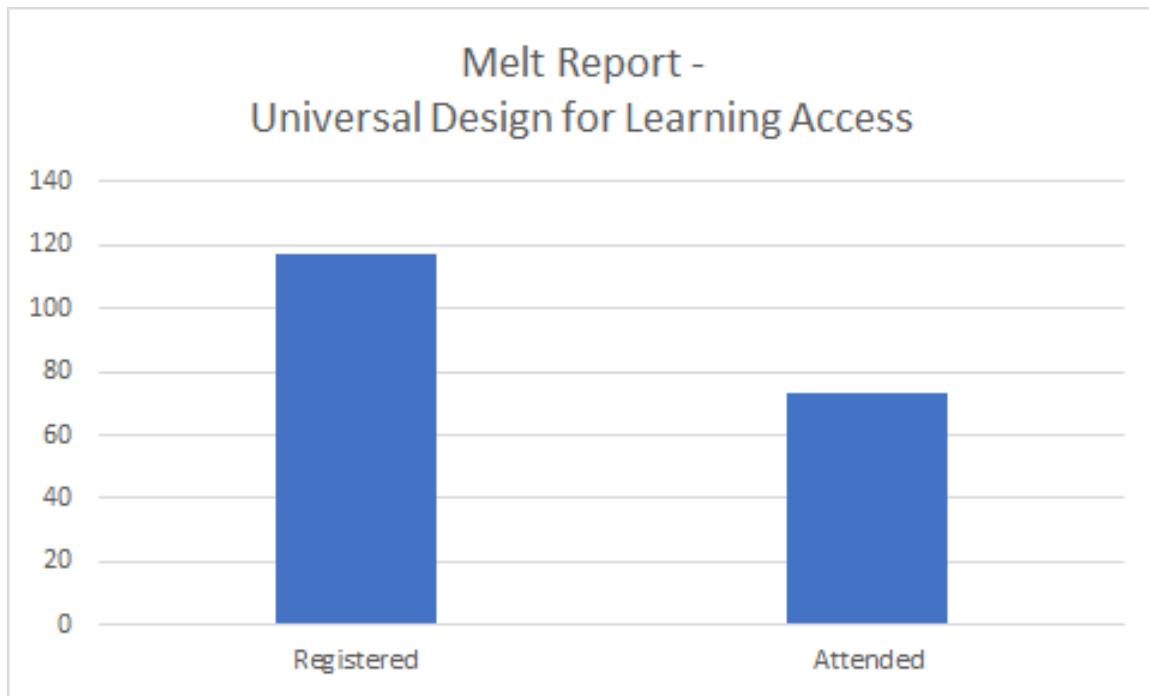

It was great!

Some more STEM-relevant examples would have been helpful. The talk was somewhat necessarily general and vague, but STEM-heavy courses have a set of challenges that is unique compared to fine arts/humanities and social sciences.

Good conference

Thank you!
