

**San Diego Community College District –Online Summit
Tobin, “Bridging the Gap for SDCCD Online Learners with UDL”
October 14, 2022**

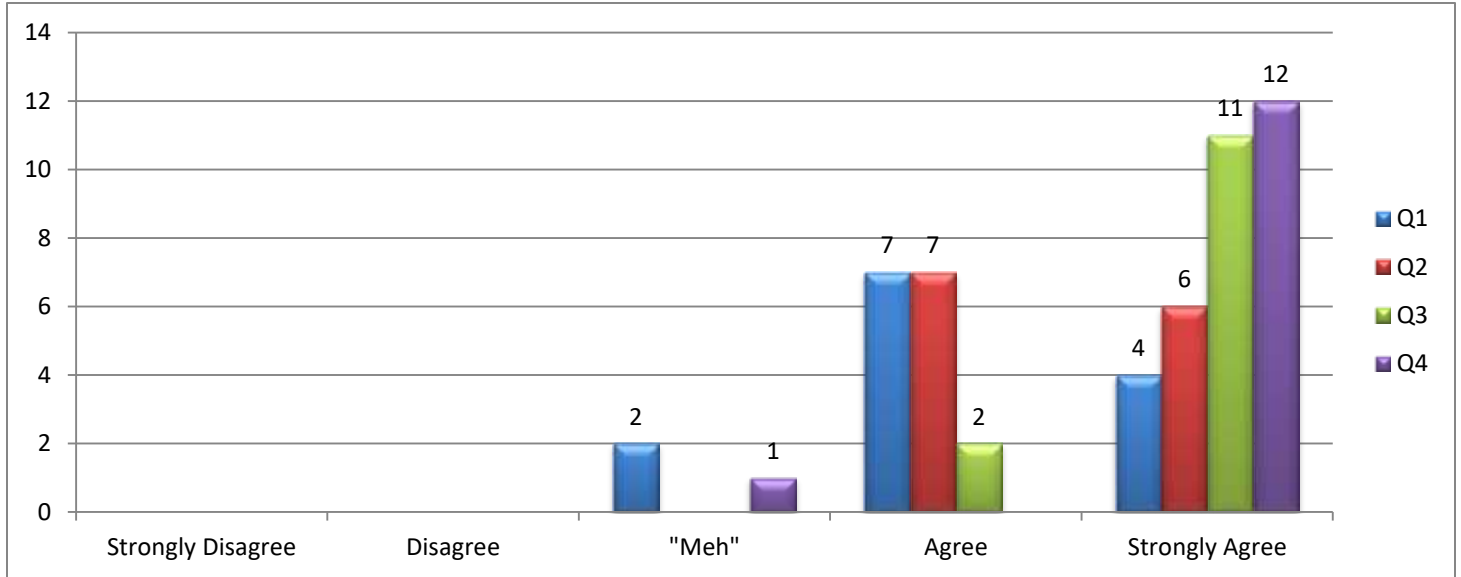

Participant Rating Results

Attendance: 33

Respondents: 13

Please indicate your level of agreement with the following statements.

1. Before the session, I was confident in my understanding of UDL.
2. After the session, I am confident in my understanding of UDL.
3. This session will be useful to me in my work.
4. Over all, this was a good session.

5. In a few words, share your over-all impression of this session:

- Great keynote presenter...highly engaging and impressive speaker/coach in Dr. Tobin; made information approachable to all levels of knowledge and familiarity with UDL. As someone still gaining insight on UDL, I found this session motivating and look forward to utilizing the resources and techniques. Hopefully, SDCCD can invite Dr. Tobin to present again in the near future. Thanks for this impressive SDCCD DE Summit!
- Great presentation!
- Great presentation. I wanted to hear more detail and clear tips to implement Universal Design into classroom /online teachings.
- Helpful when specific examples that are relatable to the “concept.” Including examples from more than one discipline is also helpful, as was done in this presentation.
- I like the 10 minute/2 minute idea for both in person and online. I also like the text to video idea, as I'd never thought of having an option for my students to deliver their discussion assignments via video. Great information!
- I really like the way the presenter modulated his voice.
- One of the best “housekeeping” intros I've ever seen; appreciated how he modeled so many different ways we can apply UDL & humanized the session; jampacked with manageable strategies. Would like him to come back to do a session he mentioned for responding/managing but still humanizing large classes (re: Elizabeth Meehan’s question at end).
- Thank you.
- Thank you for a great summit!
