

Reach Everyone & Teach Everyone with Universal Design for Learning

This interactive talk will introduce you to Universal Design for Learning (UDL), a foundational pillar in TAFE SA Inclusive Education framework.

UDL removes barriers to learning ensuring learning experiences are accessible, useful and inclusive for all.

In this session you will discover how to:

- Incorporate UDL into your teaching and learning practices
- Apply UDL principles to your existing learning interactions
- Create spaces for successful learning experiences, both in the classroom and beyond.

The session will model best practice polysynchronous delivery and you will leave with practical, hands-on strategies you can implement immediately.
