Dr. Tobin delivered a 90min virtual keynote on the topic of universal design for learning and accessibility compliance to faculty and staff at the Colleges of the Fenway (COF) consortium. The talk was very well received by the COF community and received positive evaluations from attendees.

Dr. Tobin was extremely easy to work with, bringing a high level of professionalism and preparedness to his pre-engagement process. Dr. Tobin was responsive and thoughtful in his communication with administrative planning teams and made the event preparation a breeze. Dr. Tobin went the extra mile in preparing for this event by setting up five different individual listening sessions with stakeholders and contacts at each of our member institutions. This effort was notable in his remarks as he better understood our audience and their primary concerns and training needs.

Dr. Tobin did a wonderful job managing a dual-modality audience with some attendees virtual on zoom and some gathered in person for a streaming party.

I recommend Dr. Tobin to colleagues looking for engaging and productive training or workshop.
